

Amanda Mammana

"Back to Life" is about embracing your past, even the hard times because those are the times that define us! There were times I wish I could go back and change them but I've realized that those moments have made me who I am today. I wouldn't trade them for anything.

BACK TO LIFE

I still remember that kid afraid to open the door
And now she's grown and she doesn't keep that fear anymore

It was kept in a box and it locked ... she held the key
But now the box is locked and the key is nowhere to be seen

But what if I could go back in time
And change the way I felt about my life
Oh but then would I still have inside
everything that brought me back to life

I still remember that kid wanting to be more
But now she knows that she's worth more than what she's been told

She tried her best to be best and just forget the rest
But the rest is the best and it's what you get

So just let go

But what if I could go back in time
And change the way I felt about my life
Oh but then would I still have inside
Everything that has brought me back to life

I still remember that kid afraid of losing it all
Now she knows there is a fire inside of her bones

But what if I could go back in time
And change the way I felt about my life
Oh but then would I still have inside
Everything that has brought me to learn

PROVE YOU WRONG

You say I'm crazy but that only helps
You're worried about my life more than I am
Words don't come that easily to me
So it makes me sound like I'm not ready
Songs they come more easily to me
So here's your proof I'll make it a reality

I'll just have to prove you wrong
With this song I already am
I'll just have to prove you wrong
With this song I already am
I'll prove you wrong ... again

You think I'll fail because that's what you've seen
But I can't fail because it's what I love
And oh because it's what I love
I won't work a single day of my life

I'll just have to prove you wrong
With this song I already am
Prove you wrong
With this song I already am
I'll prove you wrong ... again

There are times I don't believe in me
But then I look at how far I've come
I'm one step closer to who I've always been

I'll just have to prove them wrong
With song I already am
I'll just have to prove them wrong
With song I already am
I'll prove you wrong ... again
